SPECIAL REQUESTS

- TUNGSTEN CARBIDE:** All seals are offered in TC. We have recently produced TC components for the UI and Votator® SSHE for specialty applications (Peanut Butter).
- FEF O-RINGS:** All o-rings (Metric or Standard) are offered in EPDM, Viton®, and Silicone core materials. These O-Rings are Rated at -75F to 400F. Available in 50 or 90 Shore A Hardness. Therefore, all sealing points that rely on o-rings can be converted for Hi-Temp/Harsh applications
- VALVE ELASTOMERS:** All valve elastomers are available in a variety of colors and compounds by special order to meet the demands of your customers process.

LEGAL DISCLAIMER
